

OCEANS'23 Limerick Get Involved Form

Please note the following:

Special technical sessions are conducted in the same way as regular technical sessions during the conference. Experts in emerging fields or topics of special interest may be invited to help organize a special session on a topic of relevance to them. The session organizers are responsible for soliciting paper submissions for their sessions, and for advertising their sessions. Solicited submissions should indicate the name of the session organizer in the "I was asked to submit this paper by" field during the paper proposal submission. Authors may also submit unsolicited papers to the special sessions. All Chair(s) and presenters to Special Sessions should register for the conference.

1. Name of Special Session Organiser

2. Contact email

3. Proposed Title of Special Technical Session.

4. Short description of technical area of session.

5. Please choose the total number of papers you wish to include in your special session.

Note. Allocated time slot per paper is **20min.**

4 5 6

Please note: the final decision regarding the format and duration of Special Technical Sessions within the conference technical programme will remain with the OCEANS 2023 Technical Chairs.

Please send you proposal to TechnicalChair@limerick23.oceansconference.org .
